COST-SAVING STREET SMART MARKETING™ TECHNIQUES FOR NIGERIAN BUSINESSES

Tested & Proven System. Uses powerful techniques like PP™, MWA™ & PSBM™ that defy MBA business school teaching – AND work every time. I use this system, so I know it works. I can show **REAL proof** to back my claims.

Let me show you how to transform the way you market yourself/business, using my proven system that has repeatedly earned me six-figure income even though I work alone & “sell” a relatively **UNPOPULAR** service. It **EVEN** makes corporate multinationals **come calling for my services, without my reaching out to them!**

Among other benefits, CSSM™ can help you get invited, and even **PAID** by YOUR target audience, to tell them about what you offer. It also enables you Market your products, services or yourself to numerous potential buyers Simultaneously – even though it's **NOT radio, TV or newspaper!**

Step up to a new level of business marketing awareness and expertise.
I can show you how. Dare me to prove it.

S/N	COST-SAVING STREET SMART MARKETING™	TRADITIONAL MARKETING (Newspapers, TV, Radio etc)
1	Very targeted. Generates pre-qualified leads. ROI high/more predictable.	Via traditional media. Not targeted. ROI erratic/difficult to predict.
2	Cheap, and in certain aspects becomes near zero cost.	Often notoriously expensive.
3	Indefinite shelf life	Short shelf life (typically 1 day to 2 weeks)
4	Self-perpetuating or Viral effect enables you secure additional pre-qualified leads at NO extra cost.	Insignificant multiplier effect except in instances of special promotions/offers etc.
5	One-time development expense investment.	You have to repeat it - AND manually too!
